MAUA BANK,
01—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing borsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such ass of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

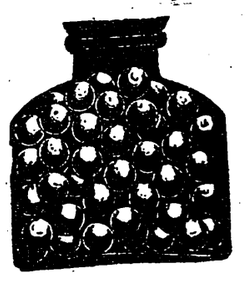
LIVER COMPLAINTS

Among civilised mankind there is no complaint so prevalent as the above, late medical statistics showing that fully one-half of nearly all the communities are to a greater or less degree afflicted with it. Under these circumstances, it is highly important that the wonderful curative powers of

BRISTOL'S SUGAR-COATED PILLS.

in Liver Complaint, should be made to the public. They are in this disease, as nearly as can be said of any medical preparation,

A PERFECT SPECIFIC!



PURELY VEGETABLE.

A remedy that is precisely as represented, and one on which the sick and ailing can always depend. Their effect is to tone and strengthen the Liver, to stimulate it in a continuous, natural, and healthy action; to prevent torpidity, to keep the bile from coagulating or becaming thick and sticky, which is always the condition in certain stages of Liver Complaint, being the preliminary to the formation of gall-stones—and the most excruciating pain in their passage through the duct into the bowels.

BRISTOL'S SUGAR-COATED PILLS.

Do not depend upon any mineral or dangerous substance for their acting upon the liver, They are purely vegetable, and entail no evil consequences upon the patient; they do not dry up the natural humidity of the bowels, thereby causing a continued necessity for further purgation, and the ultimate weakening of the entire excretory organs.

PODOPHYLLIN AND LEPTANDRIN.

The active principles of Bristol's Pills are acknowledged by all enlightened physicians to be the surest and safest remedy for every form of hepatic or biliary derangement. No other Pill, of which we have any knowledge, contain these invaluable resinoids. Prepared in our own laboratory, under our personal supervision; they insure the unvarying uniformity of operation for which Bristol's Pills have become so justly celebrated. But the powerful anti-bilious properties of these Pills are not their only virtue, they are besides a splendid tonic, a thorough yet safe cathartic, a sure cure for indigestion and dyspepsia; safe for the weakest, yet strong enough for the most robust. In short, they are an unfailing

SOURCE OF GOOD HEALTH.

To those who use them, without any of the griping, ripening, or weakening effects produced by the operation of other Pill.

In every case where there is reason to suspect that the blood is impure, or that there is any taint of Scrofula in the system, BRISTOL'S SARSAPARILLA should be used in conjunction with the Pills, the two medicines being prepared to act in harmony and when used together they ensure a speedy and complete recovery.

For Sale at all the principal Drug Stores.
—dec11

THE PROVINCIAL BANK OF BUENOS AYRES.

BUSINESS HOURS FROM 10 A.M. TO 4 P.M.

Deposits of not less than $400 m/c. and $f.16 received. These deposits will not be entitled to interest if retired before the expiration of sixty days from the date of such deposit; after sixty days they will be entitled to interest from the date of the deposit. All interests not collected shall at the end of each year be capitalized. All deposits at interest shall be entered in a book which the Bank will deliver to the depositors, in which all payments of interest and capital shall be entered, and all interest shall be payable after the first of the month or on retiring the deposit.

The Bank discounts bills with two signatures having from seven to ninety days to run; it also discounts mercantile bills of from seven days to six months, on the condition that at maturity they are paid in full.

The Bank draws at sight upon the following branches:—

POSITION OF THE COMPANY,
AGOSTO 15, 1868.
Subscribed Capital:
Hard Dollars, 2,902,765·64.
No. of Policies,..2,812 | Securities, $f1.164,161,79

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

☞ Subscribers enrolled and all necessary information given at the Head Offices of the Company, 118, Calle Piedad, Buenos Ayres.

"LA ESTRELLA"

ARGENTINE COMPANY FOR INSURANCE AGAINST FIRE, AT FIXED PREMIUM.

CAPITAL, ... 2,000,000 HARD DOLLARS

[Sanctioned by Decree of National Government, October 24th, 1865. Also by the Provincial Executive, dated 23rd of same Month and Year.]

MANAGING COMMITTEE.
President:
Don Enrique Ochoa.
Vice-President:
Don José Martinez de Hoz.
Directors:
Señor Don Tomas Armstrong.
" " Eduardo Lumb.
" " Francisco Bustamante.
" " Henry N. Hart.
Director-General:
Don Francisco F. Moreno.
Inspector
Guillermo Sohnidber.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulated Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards;—

$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes

Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal boundary.

POLICIES Issued, and all further particulars to be had, at the Head Office, No. 118, PIEDAD; or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

For further particulars, apply to the Office of the Company, 118 Piedad, up stairs.

Weather unsettled.

THE ONEIDA MAILS.

On Sunday morning the Royal mail steamer Oneida entered port, She anchored out very far. Passengers all well, and the mails came ashore at one o'clock by the boat which went off in the morning; we sent to the passengers the latest STANDARD.

Parliament was opened on the 8th of February by Commission. The Queen's Message was read by the Lord Chancellor. It began by remarking on the good feeling that is entertained in all quarters towards the country, and the growing disposition there is among nations to compose their international differences by the arbitration of allies. The condition of the revenue is said to have answered the expectations formed of it. With regard to the measures in contemplation by the Cabinet, the Message announced:—1. That the laws respecting the occupation and acquisition of land in Ireland would be amended. 2. That the status of subjects or citizens of foreign countries, who may desire naturalisation, would be defined. 3. That an improvement would be made in the constitution and procedure of the superior courts of law. 4. That the question of religious tests in the Universities of Oxford and Cambridge would be dealt with. 5. That the incidence of rating would be extended and amended, 6. That the laws relating to the sale of fermented and spirituous liquors should be amended. 7. That the laws relating to the transfer, and succession in case of intestacy, of land should be modified, as well as those relating to trade combination, and to merchant shipping. The Message expressed regret at the extension of agrarian crime in Ireland, and while placing reliance mainly on the operation of wise changes in the law, declared that the Government would not hesitate to adopt "special provisions" for securing peace and order, should such a policy appear necessary. A demonstration in favour of the Government has been held in Manchester. The Colonies and their local Governments have been under discussion.

M. Rochefort has been arrested. For a time disturbances were apprehended, and a barricade was formed, but not defended. M. Marfori, late Secretary of Queen Isabella, has been dismissed. Berezowski, who attempted to assassinate the Emperor of Russia when he was on a visit to Paris, has become insane. The Chamber has rejected a proposal to fix November 1 as the date by which the Committee on the Commercial Treaties is to have finished its report. Those members who were in opposition on the motion to prosecute M. Rochefort were excluded from the invitation list to the last ball at the Tuilleries. A footman has murdered his mistress, and seriously injured two of his fellow-servants.

The Archduchess Elizabeth, wife of the Archduke Charles Ferdinand, took flight, but was apprehended at Hamburg on the eve of her departure for the United States.

The health of the Czar is such as to incapacitate him for work.

There is said to be a deficiency in the funds to meet Papal expenditure of £1,204,120. It is asserted that the Infallibility of the Pope will certainly be voted by the Œcumenical Council.

A good understanding is reported to exist between the Porte and the Khedivé.

On January 30 the remains of Mr. Peabody were formally handed over to the United States authorities by Captain Commerell, of the Monarch. The final obsequies took place on Feb. 8, and were attended by Prince Arthur, who has been very well received in New York.

The Great Eastern arrived at Bombay on January 29. A general order has been issued permitting the Forces to wear beards. An interesting account of the reception of the Duke of Edinburgh at Calcutta has been received.

An auction sale of diamonds from the Mudjee district has been held in Melbourne.

The papers from time to time give out some startling rumors to the effect that Mr. Thornton, British Ambassador at Washington, is willing, on behalf of his Government; to cede some portion of British American territory in satisfaction of the Alabama claims. On the face of them, and without any official contradiction being thought necessary, every Canadian at once pronounces such rumors false. We are not sorry, however, to have the direct averment of the Washington correspondent of the New York *World* that "the United States Department has long since been made acquainted with the fact that the British Government would not entertain the idea of a cession or annexation of the territory in this connection. The Alabama claims will have to be settled in some other way, or not be settled at all."

The *Echo* has reason to believe that in consequence of the great benefits which have resulted from Mr. Baxter's appointment as financial secretary at the Admiralty, a similar office will be created in the War Department.

The same paper believes that Mr. Childers will show a further reduction in the naval estimates, amounting, with what he has already accomplished, to about £2,000,000 sterling.

It is stated with some confidence that the Irish Land Bill will be introduced on Monday, the 14th instant, or the Thursday following, and, it rumor is to be believed, the principal points of the measure will be—first, to secure tenants, on their leaving, compensation for actual unexhausted improvements, and for beneficial occupation; secondly, to create powers for raising money in oder to facilitate land-purchase by the tenant on payment of instalments over a period of years; thirdly, a tribunal of arbitration between landlord and tenant, but a power of eviction still to be retained by the landlord, subject to the regulation of this tribunal. A belief is now very confidently expressed in influential quarters that Mr. Bright's scheme will, with some modifications, form part of the Government measure, but that the working out of the details of the scheme will be entrusted to a commission to be appointed under the bill.

In the Court of Exchequer, yesterday, the case of 'Goad v. Rigg' was tried. It was an action for breach of promise of marriage.

Mr, Sergeant Ballantine said he was happy to inform the court that the trial would not be proceeded with. The plantiff was a young lady, 19 years of age the daughter of a gentleman of very high rank in the army; and the defendant was a gentleman of the highest possible respectability, the member of an eminent mercantile firm. The parents on both sides approved of the match, and nothing could be more kind or correct than the conduct of each party from the commencement of the engagement, but the young gentleman changed his mind after a certain period. For this and other reasons the of the young lady had felt bound to bring the matter into court; but the Solicitor-General, who appeared for the defendant, had offered to give a sum of £2000; and on behalf of the young lady, who was not present, but whose interests had been entrusted to his care, he agreed to a verdict being entered for the plaintiff for that sum, which he thought would be a proper termination of the case.

Mr. Baron Bramwell.—I thing the young lady is better off with £2000 than with a husband who had not been inclined to marry her. (Laughter.)

A verdict was then entered for the plaintiff—Damages, £2000.

The trial of the Tichborne baronetcy case has been postponed till next term. The Edmunds scandal case has entered upon a new phase. The case of the Duke of Newcastle is to come before the Law Lords on the question of privilege. A singular libel case, in which Dr. Williams and the Duchess of Somerset figure as plaintiff and defendant, has been referred to the Court of Exchequer. The Goderich divorce case is now before the Court of Queen's Bench. The business in the Divorce Court involves several important trials.

Her Majesty has been graciously pleased to signify to Mr. Craufurd, M.P. for the Ayr Burghs, through General Sir Thomas Biddulph, K.C.B., her acceptance of the glove-box and jewel-case made from the original rafters of Burns' Cottage, and offered to her Majesty by Ex Convener Cowan, of Ayr.

Jealousy recently led a man living in London to steal a bag of powder and visit the suspected young lady, when an altercation arose between him and the proprietor of the house, and he threw the bag of powder in the fire, blowing himself into the next room and the next world. No other person was killed, though several living in the house were seriously injured.

Washington January 27.—The ball given at the new Masonic Hall tonight by the British Minister and Mrs. Thornton, in honor of Prince Arthur, was decidedly 'recherché,' and one of the most magnificent affairs of the kind that has ever taken place at the capital. The hall was gorgeously decorated with flags and flowers, all of which were arranged with the most artistic taste. In all of these decorations the American and the British flags were conspicuous, and were arranged by C. M. Breese, United States Navy; Hamilton Fish, Jr., General Woodhall, of the Engineer Corps; Lieutenant Cutts and Lieutenant Turnbull, of the navy, and Seaton Monroe, Esq., under the direction of Mrs. Thornton and Mrs. Freeman. At the east end of the hall a platform was raised, the surroundings of which were tastefully hung with festoons of flowers, while a large number of ornamented gas jets were added to the permanent fixtures in different portions of the room.

As the guests arrived an officer at the door took the name of each one and introduced them to Mrs. Thornton. About ten o'clock Prince Arthur arrived with his suite, and was met by Mrs. Thornton at the head of the stairs and escorted into the hall and up its centre, the band playing 'God Save the Queen' meanwhile. At least 600 or 700 ladies and gentlemen were present, many of the latter being officers of the army and navy. At 10 o'clock the President and Mrs. Grant arrived, and as the band played a national air the Prince, who was conversing with some ladies at the east end of the hall, skipped across the room, and, meeting Mrs. Grant at the head of the stairs, escorted her to the platform and handed her to the chair, President Grant leading the way with the wife of the British Minister. The dancing commenced a little before 11·30 by a cotillion, one set only participating. The Prince led off with Mrs. Grant, their 'vis-a-vis' being Mr. Fish and Mrs. Thornton. The set was further composed of Mrs. Fish and Mr. Thornton, Mrs. Boutwell and General Belknap, Mrs. Sherman and Admiral Porter, Mme. Blacque Bey and General Sherman, Mme. Garcia and Mr. Boutwell, and Mme. Catacazy and Mr. Robeson.

ARREST OF ROCHEFORT.

DISTURBANCES IN PARIS.

Paris, Feb. 8

M. Rochefort was arrested last night at 8 o'clock as he was about to enter the Public Meeting-hall, in the Rue de Flandres. He made no resistance; but, on the contrary, said to the bystanders at the entrance, "Remain quiet, citizens. I shall soon return to the meeting." After this the Commissary of Police and his assistants, accompanied M. Rochefort to a carriage, and conducted him to the prison of St. Pelagie, Just after the arrest M. Flourens, who was present, stepped forward, and, unsheathing the blade from a sword-cane, shouted, "Rochefort must be set free." It is asserted that he fired two or three shots from a revolver, and that others followed his example.

Half an hour later an attempt was made to throw up barricades in the Faubourg du Temple, and also in the neighbourhood of the Courcine Barracks. Carriages and omnibuses were upset but the presence of the police sufficed to disperse the rioters. About the same time six omnibuses had been overturned in the Rue de Paris, at Belleville, and a somewhat imposing barricade was thus formed. At 1 o'clock this morning strong detachments of the garde de Paris and bodies of infantry and cavalry proceeded to Belleville. The Boulevards at the same early hour presented a rather animated spectacle; but as yet there has been no disorder. Large bodies of police are massed together at the entrance of the Faubourg Montmartre.

At the barricade which was erected early this morning in the Rue de Paris Belleville, 15 persons engaged in defending it were arrested. At half-past 12 this morning the rioters broke into the gunshop of M. Lefaucheux, Rue Lafayette, and decamped with 40 guns and 300 revolvers. Numerous arrests have been made. The barricades are guarded by troops of the line and the police.

3 30 p.m.

The Bourse has been rather undecided, and closed dull. Rentes were finally quoted at 73f. 20c., or 7c. lower than yesterday.

Evening

The total number of arrests effected is 150. M. Flourens is still at large.

The latter and M. Bologée prevented the assassination of the Commissary of Police, who was dragged into the street by the crowd after closing the meeting in the Rue de Flandres, No resistance was offered to the authorities by the persons concerned in throwing up the barricade. Perfect quiet reigned throughot the city to-day.

8 45 p.m.

It is stated that all the writers upon the journal *La Marseillaise* have been arrested, excepting M. Arrould, who managed to escape. The Commissioner of Police has made a search among the papers at the office of that journal.

IMPORTANT FROM PARAGUAY.

MRS. LYNCH AND THE SURVIVORS.

The *Tribuna* has the following bulletin:—

Asuncion, March 9.

Besides Lopez most of his followers have been slain, including two of his sons; the elder, Pancho, was Mrs. Lynch's eldest boy, about fifteen years of age, the other, a child of ten years whose mother is Juana Pezoa. The Vice-President Sanchez, the Minister Caminos, Col. Aguiar, chief of staff and others, were killed. Resquin, Delgado, Cabrita, Centurion, Escobar, &c. are prisoners. The two sisters of Lopez and the families of Caballero, Caminos, Gil, Geres, &c. will accompany our troops to Buenos Ayres. Lopez was going to shoot his mother and sisters the day of his death. All his officers showed fight, except Resquin; 24 pieces of cannon were taken. Mrs. Lynch and her four children are coming in a bullock-cart.

Major Bento Martins came on Caballero two leagues from Miranda on the 25th of February, the enemy's force consisting of twelve officers and nine men. He took six officers and six men, but Caballero and Roa escaped, leaving their baggage behind.

THE PARQUE CLUB DINNER.

On Saturday evening the banquet to celebrate the conclusion of the Paraguayan war, took place in the saloons of the Parque Club in Calle Arter. The front of the club house was gaily decorated with flags of the allied nations and Chinese lanterns, whilst a military band posted on the opposite sidewalk played the most stirring airs at intervals.

At half-past six o'clock, as most of the members and invited guests had arrived, Mr. Hector Varela led Gen. Bartolome Mitre, Dr. Rawson, and others into the banquet hall, and in a short spicy speech called upon General Mitre to act as President of the feast, being the fittest and most proper person in all Buenos Aires for such a post, and naming Mr. George Mitre as croupier, who would explain to the party the real objects of the banquet. At this stage of the proceedings the soup was served, and just as the party were about to discuss the merits of the mock turtle Mr. George Mitre rose and in a most eloquent strain defined the real objects of the banquet; but this departure from the usual rules of banquets, namely making speeches before the dinner began was not relished by men of good appetite, who rather than eat cold soup vigorously attacked the mock turtle during the eloquent address of the speaker. The dinner proceeded; it was all that the most fastidious epicure could desire. M. Mareschal, of the La Paix, won fresh laurels by this magnificent repast rivalling even the memorable last year's banquet to General Osorio. The bill of fare was so long, and the impatience of many to make speeches so great, that before we came to the Beccasinos, eloquence triumphed over cookery, and the speeches began. Had M. Mareschal left the punch *a la Romaine* to the last it is probable that we should have finished our dinner; but the punch before roast beef was for many so violent an innovation that they believed that the dessert had begun, and General Mitre was vociferously called for.

Ex-President Mitre rose and in a powerfully eloquent speech touched on all the passing events of the campaign, the great power of moral force, and breathed a hope that our children would preserve intact the liberties for which we had so long and sturdily fought. He resumed his seat amidst great cheering.

Dr Rawson was next called for, and made a speech which only Rawson can make. He jumped from the war to the material progress of the country, and with masterly felicity showed the real results of the campaign. He concluded by toasting prosperity to Brazil.

Mr Boca Yuba, a Brazilian gentleman, rose and replied for his country. The speech of this gentleman was frequently interrupted by spontaneous bursts of applause. He returned the compliment by drinking prosperity to the Argentine Republic.

Hector Varela was then called for. He spoke in his usual florid and eloquent style, apostrophised the power of eloquence on European and American liberties, spoke of the black clouds over Brazil soon to be cleared away by the force of public opinion, replied to the observations of Sr. Boca Yuba, and resumed his seat amidst the most uproarious applause.

Mr. Luis Varela was called for. He spoke of the real objects of the banquet, not to commemorate the death of a man as some supposed, but the glorious conclusion of a long and tedious campaign, the birth of a new republic, springing up from the blood-stained fields of Paraguay. This gentleman spoke with true oratorical fire of the sorrows of a sister country and a kindred race. His speech was listened to with the most marked attention, and he resumed his seat amidst the most boisterous cheers

Mr. Centeno then addressed the company, and in a short but well-timed speech gave evidence of high oratorical talent.

Gen. Mitre rose and proposed the Allied Army.

M. Cané next spoke as the exponent of young ideas.

George Mitre again rose and made a really eloquent speech on the topics of the night; he proposed the health of Gen. Urquiza, Gen. Mitre, and Hector Varela. [Tremendous cheers.]

Master A. Viana next spoke; although a mere boy, he spoke with the pluck and readiness of a Varela.

Col. Mateo Martinez rose to thank Gen. Mitre for presiding at this banquet. The gallant colonel thanked him also for his gift to the Club of a portrait of the unfortunate General Flores.

As it was now getting late we retired, the juvenile portion of the guests having evidently much to say. The feast of reason and flow of soul held till half-past eleven o'clock, when the guests accompanied Gen. Mitre and Hector Varela to their houses, after which most of them repaired to the La Plata Ball.

MONTEVIDEO.

Saturday,

The invasion of Aparicio and Benitez has been much exaggerated; the 'liberating' army is not even over 40, or at the outside 70 adventurers, and the despatches received from General Castro, Gefe at Salto give the following particulars:—

"Aparicio invaded this department on Saturday 5th inst. coming over from Entre Rios with 60 or 70 men and landing at Rincon Mendoza, between Federacion and the Arepey. He effected the crossing at midnight, but was at once perceived by the police outpost; a sergeant and three men of Reyna's corps went so near the marauders that the latter captured all but the sergeant, who succeeded in getting away and giving the news to Lieut. Cabrera. This officer at once started in pursuit, accompanied by 40 men, and overtook the enemy in a wood called Espinillal, where a running fire was kept up till morning, when Commissary Gomez came to reinforce Cabrera. All day and all night the belligerents observed each other, but next day the scouts of Cabrera reported the invaders 'nowhere.' Since then I learn that they are off towards Tacuarembó.'

Private letters mentioned that Aparicio and Benitez are accompanied by only some Entre-Riano vagabonds. General Urquiza has ordered an inquiry, as to who aided them in the movement. Major Frenedoso received a slight wound in a brush with the rebels *after their landing.*

The Finance Committee in the Chamber of Deputies have reported unfavorably on the loan, which Mr. M'Kinnon has been negotiating in London, and advise its rejection. The amount was to be two millions sterling, but this would be cut down by commission and discount to £1,226,000 or 61½ per cent. of the nominal value: thus the 6 per cent. interest and 2½ amortization would be really 14 per cent. per annum. Messrs. Thomson Bonar and Co. required a lien on the import and export revenues and a deposit of one year's interest, &c. (£160,000) which the Government should leave with them till the loan was fully extinguished (in 1891). This is a sad contrast with the Chilian loan just concluded at 83. with only 5 per cent. interest.

Among the passengers per Oneida are Colonel D'Arcy, the new Governor of the Falkland Islands, who goes on to Buenos Ayres, Baron Mauá from Rio, Mr Smithers of the R. P. Bank, and some other old friends.

Sór. Caro, the new engineer of the Cuñapirú mines, was a Deputy in the Spanish Cortes, and is said to be a very intelligent man. Sór Espejo, another refugee, is putting up a smelting establishment on his own account.

Mr. Thomas Havers died on Thursday, aged 59 years: he was an old and respected resident, and leaves a large family. The doctor of the Pylades was nearly drowned, during the recent gale, in going ashore to visit Mr. Havers.

DEATH OF MR. THOMAS HAVERS

Our readers will regret to hear of the demise of this gentleman, who resided in Montevideo for many years past, having previously held an agency of much trust in the Falkland Islands. Mr. Havers was descended of an old Catholic family of one of the midland counties in England. Under the administration of the late General Flores he was entrusted with the public works of Montevideo: the handsome new market behind the Solis theatre was designed and erected under his superintendence. In 1865 he started an English newspaper, which was edited with much ability but had only a short duration. Mr. Havers was a man of general information much respected for his kindly disposition and sincere, gentlemanly character. He had been in failing health for some time back; last week his illness assumed a grave character, and he was attended by the Rev. Father Davies and the doctor of H.M.S. Pylades. He died on Thursday 10th inst, in the 59th year of his age, leaving a widow and several children to deplore his loss.

R. I. P.

EDITOR'S TABLE.

The Royal Mail steamship Oneida arrived in port on Sunday morning, her mails were partly delivered that afternoon and the remaining portion yesterday morning. She has been placed in quarantine for the full period. The news by this vessel, though lacking items of any startling nature is in general of much interest. There appears to be taking place in Europe a gradual revival of trade and enterprise of every kind consequent on the more peaceful aspect the future has lately assumed. The markets for River Plate produce are fairly steady, wool maintains its value though tallow has declined. The arrest of Rochefort led to some riots in Paris; the gendarmerie charged the mob with the bayonet and restored order, the regular troops afterwards taking possession of the barricades which were composed of omnibuses, torn down scaffolding and other 'debris;' everything is now quiet.

Amongst the reforms contemplated by the Foreign Office in England in the Diplomatic Service of the country is the abolition of all the Legations in South America, except that at Rio Janeiro; at all other places where there are at present Ministers, it is proposed to replace them by Consuls General. It is also in contemplation to place the Consular Service for the future under the exclusive direction of the Board of Trade.

We have been requested to state that a letter of importance has been received at the British Consulate here for Mr. Andrew Bryson who is requested to call for it, or should he not be in town any friend of his kind enough to call will be communicated with.

The Count del la Croce, Italian Minister gave a banquet last night at which H. E. President Sarmiento was to be present. The dinner was given in honour of the anniversary of the birthday of his Majesty the King of Italy, and is the first official banquet given by a foreign Minister at which the President was present.

The English Government is at present taking up brigades of boys for the Telegraph Service now exclusively under its direction throughout the United Kingdom. We have heard, but give the rumour with reserve, that it is the intention of the National Executive to imitate the British Government in this respect, and take the management of the telegraphs of the Republic into its hands; we should be inclined to think the measure premature at the present moment.

Aroldo was produced at the Colon Theatre on Sunday night before a crowded house. We must pronounce the performance a decided success. The character of the music is very pleasing, the instrumentation in many instances being of a decidedly German stamp; the overture and finale of the first act are charming, and brought down loud applause. The 'mise en scene' is extremely good, particularly the storm scene in the last act. All the performers acquitted themselves admirably. We defer a more lengthened critique on Aroldo till we have seen it a second time.

We hear that meat is at an extraordinary high price in Cordova; but for the abundance of fruit the poor classes would be badly off; a combination amongst the butchers is said to be the cause of this state of affairs,

We observe that Her Majesty the Queen has been graciously pleased to appoint Charles Saunders Dundas Esq., to be Her Majesty's Consul at Santos; vice our ubiquitous friend Captain Burton transferred to Damascus.

We have received per American mail an account of an attack by pirates in the China seas on the German ship Apenrade from Whampoa to N. York. The Captain and mate were wounded, but the pirates were eventually beaten off with 20 of their number slain. We will publish full particulars to-morrow.

A distinguished Scotch merchant in New York, Mr. Lennox, appears desirous of assuming the philanthropic mantle of the late Mr. Peabody. He has lately given 300,000 dollars to found a free Lecture Room and Museum in that city.

Our friend Mr. George Winterbottom advertises in the English papers for young men desirous of learning farming in South America. He undertakes to teach and maintain such at a yearly charge of £75.

The numerous friends in this country of Captain Mitchell formerly in command of the Doterel, and Captain Colin Campbell of the Narcisus will be sorry to hear of the death of both those gallant officers, The latter who had been promoted to the Ariadne fell ill at Malta, and died on his arrival home Captain Stubbs who was formerly on this Station has, we understand, been promoted.

A new book on South America entitled 'The Andes and the Amazon' has just been published by professor Orton.

There have been frightful hurricanes in the States. Cape City, Kentuck, has been half destroyed by a tornado; 15 people were killed and 35 wounded.

Aparicio and his band of taterdemalions have landed in the Banda Oriental, but the Gefe Politico Don Eduardo McEachan was quite ready for him. Latest accounts represent the marauders as defeated in a brush with the troops and flying to the mountains.

The masked ball at the La Plata Club on Saturday night was not as

numerously attended as the previous one, nevertheless it was very brilliant and the guests did not separate till a late hour.

The damage done by the storm has been estimated by the frightened correspondent of a Montevidean paper at £1,000,000 stg. The figure is absurd; our estimate of about £130,000 is we think correct.

The rumour is revived that the French theatre is to be thrown down and a banking building erected on the site.

Only 504 immigrants have arrived in the Plate from Europe since the 1st of March.

The dissatisfaction of all classes at the delay in the resumption of traffic by the tramways is daily increasing; nothing is known as to what the Municipality intend doing in respect to traffic regulations, and until this venerable body "moves on" the unfortunate public must perforce exercise the virtue of patience. It is quite shameful the way in which the authorities have muddled this affair.

L'Africaine will be produced at the Opera House next month.

The Club del Parque gives a masked ball this evening.

The Inspector of Saladeros has recommended that these establishments should be obliged to construct enclosed ovens for burning their refuse matter. It is thought that such measure would greatly modify the inconvenience at present attending the process.

A hackney carriage driver went into Carabasa's bank on Saturday and presented for payment a cheque for $5000 m|c. The instrument turned out to be forged, and 'Jehu' was at once consigned to the custody of a policeman.

The candidature of General Mitre at the next elections for the post of Governor of Buenos Ayres was spoken of at the Parque banquet on Saturday night.

We salute Colonel D'Arcy the newly appointed Governor of the Falklands, on his arrival in the River Plate. This distinguished officer has we believe seen much service.

MEDITERRANEAN STEAM COMMUNICATION WITH THE RIVER PLATE.

Some months ago it will be recollected, as stated in our columns, that Mr E. B. Neill, the Montevidean Consul General in London, was applied to for parliamentary copies of postal contracts for steam service, and other information of a like kind as bearing on British packets, in order to serve as a precedent for the guidance of the eminent house of Messrs Murrieta, of London, to frame their arrangements with the Italian Government in reference to the new steam line intended to ply between the River Plate and Genoa and other Italian ports, calling also occasionally at Barcelona and other Spanish ports, as the requirements of the service may seem to suggest from time to time. We have now the pleasure to announce the successful inauguration of this important service, under the most encouraging auspices in London on the 31st January, as shown in the annexed particulars, which have been obligingly forwarded us at the instance of Mr Neill, who in so doing adduces another instance of his long proved zeal in the material interests not only of the Banda Oriental, which he so assiduously serves, but of the region of Rio Plata collectively.

Commercial relations between nearly all Europe and the Plate are now being so rapidly developed, and emigration to those quarters is so much increasing, 40,000 persons having quitted those shores within a very short time to settle in this region, that the addition of a new line of steamers from the Continent will excite but little surprise. This undertaking was happily and successfully initiated on Monday by the launch of a very handsome vessel, with fine lines for speed (the first of a series) from the well-known building yard of Messrs. J. and W. Dudgeon in Cubit-town on the Thames. That she is fully adapted for the trade her principal dimensions will abundantly show:—Length between perpendiculars 270 ft, Beam moulded 34 ft. Depth of Hold 25 ft 6 in. Registered tonnage 1,600 tons. Nominal horse-power 300. When it is further stated that she is capable of carrying 100 1st and 2nd class passengers, and 500 3rd class passengers, and is replete with the very latest improvements in ventilation, sleeping accommodation, sanitary arrangements, and every accessory to comfort and convenience, as well as characterized by great taste and excellence, it will be evident how suitable a vessel she is for the special purpose appointed her. The Italo Platense is provided with twin-screws a principle in construction long advocated by the eminent Artic voyager and great naval authority, Sir Edward Belcher, and others, and carried to great perfection by the present builders.

The Company is a Limited Liability one established in Buenos Ayres under the name of "Compañia de Navegacion a vapor Itala-Platense," whose object is navigation by steam between Italy (port of Genoa and Mediterranean coast, generally including Barcelona, &c.) and the River Plate. The capital is stated at 800,000 hard dollars, divided into 1600 shares of 500 dollars each, and may be increased if required by a further development of the Company's operations. As a novel inducement to invest in the Company, every subscriber of original shares at the time of the Company being constituted, shall have the right for once to make a voyage out and home *gratis* as first-class passenger on board the steamers of the Company. The Board of Management consists of ten Directors (five titular members and five substitute members), a manager and secretary. The great eclat with which the Company's first vessel the "Italo-Platense" was launched is a promising harbinger of future success. A select Company, including the Italian Minister, Marchese Carlo Cadorna, Baron Marochetti, Geo. Drabble, Esq., chairman of the River Plate Bank; Admiral Sir Edward Belcher, the Montevidean Consul-General, Captain Antonio Oneto, the promoter of the Company, &c. &c. witnessed the spectacle, and much admired the comparative ease and rapidity with which the vessel glided into the river.

The duties of sponsor were graciously performed by Madame Murrieta, wife of one of the partners of the eminent firm of Murrieta & Co., who have fostered this enterprize with the greatest care from its commencement; and if any further propitious omen were needed, it was fully supplemented by the presence of Bishop of Troy (Dr. Morris) and his chaplain for the future success of the undertaking, after the Italian manner observed on all similar occurrences. The united company to the number of about 150 including a few ladies, afterwards sat down to a well provided lunch, Mr. John Dudgeon acting as chairman. A band of twenty performers enlivened the proceedings. Addresses were made by the chairman, the Italian Minister, Geo. Drabble, Esq. and Sir E. Belcher and others, all congratulating the company on the happy success of the ceremony they had just witnessed. The usual toasts were proposed and drunk, and the company separated, all well pleased with their day's entertainment.

The Company are in treaty with the Italian Government for the conveyance of mails between the Italian and South American ports. Two other vessels for the same Company of similar dimensions to the Italo Platense are building by the Messrs. Dudgeon, and a fourth vessel of somewhat larger tonnage is about to be laid down by them.

Mr Neill has sent us a copy of the Company's articles of association, but all the points of public interest they contain will be found in the foregoing.

THE GUALILAN GOLD-FIELDS.

The recent meeting of the Anglo-Argentine Company, elicited some valuable information about these new gold-fields. The Secretary read the following extracts from a letter received from Mr. William Barnard, the company's superintendent, dated San Juan, November 12, 1869:—"Works at Gualilan. The south shaft is now 102 feet deep, the north shaft 53 feet, timbered all the way down. It must be at this moment waiting for timber, as I confess myself taken by surprise at last month's progress. The storehouse is roofed, and carpenter fitting shelves, &c., masons at work on blacksmith's shop, which is in a forward state.—Road. A letter from Captain Goundry, dated 10th instant, reports excellent progress, and 28 hands at work. When I passed him on the 5th instant his total distance made was above 24 miles. The Government engineer returned from Gualilan with Captain Vivian and myself. He is now engaged on his report, and when this is presented application will be made to the local government for reimbursement. The distance wanting to complete the road may be some 15 miles, and adding this to what has been measured, the total cannot exceed 57 miles from the works to Albardon, a suburb about 7 miles distant from this city [San Juan]. The saving of distance is now enormous, and there is, besides, a further great saving of time effected in movement along a clear road with good foothold. My journeys are now made in a day and a half, but may eventually be accomplished in a single day or night.—Amalgamation of ores. Referring to what I wrote under this head on the 16th July, I now enclose a few lines from Captain Vivian, recommending the amalgamation of ores. The subject continues to have his attention, and he will presently report further as to the machinery required. —Pique Mine. Messrs. Jacobs and Co. commenced extracting gold last month, grinding the ore mixed with mercury in very rude machinery moved by two horses. Captain Vivian estimates the weight of ores thus treated at 15 tons. Besides the result which I forward to you, he states a large quantity of gold went off in tailings. The metal obtained weighs 43 ozs. 7½ cwts., and I purchased it of them at about £2 12s. per oz., say for £112 9s. 10d. Thinking it would be satisfactory to the directors to receive this practical illustration of the produce of Gualilan, I have forwarded the metal in a parcel to the London and River Plate Bank for transmission to you by the first steamer."

The secretary next read the following communication received from the Government inspector of mines, and dated from the Consulate-General of the Argentine Republic, London, January 4th, 1870, and addressed to the chairman of the company:—"Having read in the *Times* of this morning some extracts from a letter from Mr. Barnard, the manager of the Anglo Argentine Mining Company, the importance of which perhaps only myself in London can fully appreciate, I feel it due to you in my official capacity to offer a few explanations which may serve to enlighten your board and enable them to judge by comparison of the results likely to be obtained on the Company's property at Gualilan. First let me state that I consider the progress made by Captain Vivian on the shafts to be most favourable, bearing in mind the embryo state in which the mining operations were, and I have no doubt that with the appliances which must have reached him ere this, his further progress will be still more marked and rapid. The advanced state of the road between the mines and the capital (San Juan) is indeed a matter of congratulation, as you are aware, no doubt, that proper means of transport and communication are the secrets on which success depends in mining operations in South America. There we have almost inexhaustible metalliferous deposits, virgin and rich in the extreme, rendered comparatively worthless for want of roads and accessories of this class. I, therefore consider that the opening up of the Gualilan district to carriage traffic is half the battle gained. This I can confidently assert from past experience, as the memory of repeated failures, solely owing to this insufficiency, is vividly before me. The paragraph referring to the altered views of Captain Vivian as to the mode of treatment best suited to the ores and the facile extraction of the gold has my warmest approval. If I remember aright, I stated in my first report on the Gualilan mines that I considered amalgamation an indispensable adjunct to the system proposed for extracting the maximum quantity of precious metal, and I believe I confirmed that recommendation after having analysed various samples and thoroughly inspected the mines. This partial alteration of system need not interfere in the remotest degree with the utility of the machinery already dispatched, as a large proportion of the ores contain the gold in a free state with simply a ferruginous quartzose matrix. The portion required to be treated by amalgamation is essentially that in which the gold exists in combination, whether chemically or mechanically with arsenical iron pyrites, and to effect its complete separation re-agents such as mercury, sodium, and copper plates, &c., will be required. I need scarcely add that the "stamps" or crushing machinery sent out, perform an indispensable part in preparing the ore whether for one process or the other—amalgamation or washing on skins or blankets as at the Don Pedro Company.

I now come to the most satisfactory part of Mr. Barnard's communication, I allude to the results obtained by your neighbours, M. Jacob & Co., or rather Messrs. Oros & Co., and my principal object in addressing you is to try and convey to you and your colleagues a true conception of its importance. The result of the small parcel of ore alluded to, about 15 tons, would doubtless be considered by general observers as meaning very little, but when viewed and considered by one who has an intimate and technical knowledge of the ore ground, the position of their mines in relation to yours, the circumstances attendant upon its extraction and reduction, and lastly, the reliable traditions extant, not only in the country itself, but also in Chili and adjoining Republics, the result must be looked upon as one of the guiding stars to future prosperity for the Anglo-Argentine Company. The quantity of ore treated by Messrs. Oros and Co., according to Capt. Vivian, was some 15 tons. The result obtained by amalgamation on the whole quantity as announced, shows nearly three ounces to the ton, and I quite agree with Captain Vivian that almost a similar quantity must have been lost in tailings, owing to the imperfect machinery used for extracting the gold, as hereafter described. I wish to impress on the board, in the clearest possible manner, that the result obtained from your neighbors' mines bears directly upon those anticipated and hoped for from your own, inasmuch as Messrs. Oros and Co.'s mines are situate nearly midway between your north and south claims, and precisely on the same lodes which run uninterruptedly for many thousands of yards north and south. From this it is clear that you have the same ore stuff in the same lode. Before going further I must tell you—Where that ore came from.—How it was obtained.—And the method of extracting the gold. I believe it to be identical with the quantity of about 12 tons, mentioned in my former note to you, probably either slightly augmented, or, perhaps, the same insufficiently estimated on that occasion. First, then, as to where the ore came from. The water in the 'Pique' shaft was up to the 80 metre (40 fathom) level, and perhaps 12 to 14 metres deep. They had a very rude apparatus contrived to resemble a 'Whim,' worked by two half starved horses, occasionally relieved by two still more attenuated mules. To this were geared two very ill-proportioned and almost worthless ropes, which in their turn supported two ordinary buckets. It may be easily conceived that such an apparatus must have been totally inadequate to drain the shaft, for what with repeated breakings of ropes, entanglement of buckets, and inefficiency of motive power, your neighbours made very poor progress indeed. How the ore was obtained—Having managed to get the water down some six or eight metres, they discovered a level or gallery running at right angles to the shaft. From this (which was of course a mass of mud and debris), the workmen extracted the above quantity of ore, during the few hours the water was kept at bay. All this was done I believe in the presence of your representative, or at least Captain Vivian.

Method of extracting the gold.—The system almost universally adopted for beneficiating gold ores in South America (I allude to Spanish America), is simply a very rude edge runner, chiseled out of a block of granite or porphyry revolving vertically on a bed stone (slightly concave) of similar material. An upright wooden shaft revolving on a pivot in the centre of this, and from which a cross axle passes through the runner, completes the machine. The ore and mercury are placed on the bedstone whilst water is allowed free entry and exit during the grinding. It is natural to suppose that such a rude contrivance cannot possibly retain all the finely divided particles of quicksilver, many of which go off imperceptibly on the water. These particles hold gold in the same ratio, more or less; as the remaing mercury on the bedstone, and hence the loss of precious metal, in addition to the mercury, which is dear there. The loss is double, and thus we have one of the primary causes of non-success and abandonment of gold mines by the natives of those countries. The results above-mentioned however crude and imperfect, are, notwithstanding, sufficiently interesting, to your company, for if forty-three ounces were thus extracted from fifteen tons of what may be fairly presumed to have been refuse ore from an old gallery, every hope may be rationally entertained of brilliant results when you have driven your shafts and cut the lodes to the north and south of the Pique. This result is but a small earnest of what you may confidently look forward to, and every step advanced by Captain Vivian in opening the mines, convinces and confirms me more and more in the opinion that you have a property second to none of its class in South America. Wishing you every success, and assuring you of the warm interest which the Government I have the honor to represent, evinces in the development of mining in the Argentine Republic, and your company in particular.

I am, etc.

F. J. RICKARD.

ON 'CHANGE.

March 14, 1870.

Ounces	400
Sovereigns	122½
Patacons	25
National Bonds	66

The Bond market ruled a shade firmer, although there is very little animation in the markets; the bulls are waiting to see the market drop a little in order to buy in largely, whilst the bears having sold all the Bonds they could get, are now doing nothing, being afraid to sell short, owing to the attitude of the market.

Exchange was done to-day pretty freely at 50¼, and on France at 5.28. It appears that the packet will not be detained by the quarantine arrangements, but will sail positively on the 17th inst. She has been put in quarantine until the 21st, but she lands both passengers and cargo at Ensenada, takes her mails and leaves at her appointed hour. The City of Rio has also been placed in quarantine until the 23rd: she lands her passengers and cargo at Ensenada and proceeds on her appointed day to Europe. The Port Captain came up yesterday from Ensenada, having taken down a troop of carpenters and bricklayers to arrange premises for the unfortunate passengers, for whom the greatest concern is expressed.

There was a good deal said to day about the negotiation of the provincial loan in England; some parties asserting that it has already been done at 3°. As far as we could gather the loan has not been done as yet, but several proposals for the loan have come out by the packet to Governor Castro, the most advantageous of which is at 80.

Money was in good demand to day, and some first class bills were done at 12 per cent. per annum, still there are large sums offering on bonds at 12 per cent., and no takers.

The news by the Cordillera was not generally known on 'Change, and there was much inquiry as to how the London wool auctions passed off.

The packet has brought one hundred and fifty thousand patacons for Lezica and Lanuz, the specie however was not permitted to be landed and is placed in quarantine.

In the wool markets very little doing. Mr. Bertiechen sold 4000 arrobes mixed wool this morning at from 47 to 50. Some 3000 fanegas wheat sold at from 120 to 153.

Messrs. Lezica and Lanuz received from Rio, per packet, previous to Oneida $26,000 pats.

The news from Rio respecting the fever is not altogether satisfactory. The cases average 10 per day. Few ships in Rio harbour, and business dull, but the impression is general that the fever is gradually abating. Letters have been received from passengers per Royal mail from Bahia. All well on board and pleasant voyage; also from passengers per Chilian steamer arrived at Rio from Montevideo. All well on board, and no sickness.

The financial advices from England are good. Argentine bonds 86. Buenos Ayrean have fallen to 93, owing to the rumours about a new railway loan, but money is very abundant at 3 per cent. per annum.

The steamer Silver River from Asuncion has arrived, ten days coming down; she brought down the body of Mrs A. Taylor deceased.

All the news arrived last week from Paraguay was confirmed to day with the exception that Caballero has escaped to the woods, but without men or arms. Mrs Lynch and children will probably touch at Montevideo at the end of the week en route for Europe.

The Count D'Eu may be expected down at any moment, but his Highness will not touch at any port, but proceed direct to Rio.

The wool advices per packet are as follows:—

Liverpool, Feb. 7, 1870.

Merino and Mestizo Wool.—The tone of the market is one of dulness rather than of depression. There are some sellers at ½d per lb decline on November, but below this holders do not press sales.

Antwerp.—During the past month the demand has been very limited, and quotations have in a degree been nominal; but consumers will have absorbed most of their November purchases by the time the auctions of 21st inst. begin. These sales are to last till 26th inst., and will comprise 15,000 bales.

Havre.—Business limited, but the tone no worse than last month. Light-conditioned medium parcels more wanted than finer and dirty sorts.

Liverpool.—At our recent auctions only trifling parcels of mestizo were offered, stock being kept until the demand sets in; by private contract a parcel of new clip B. Ayres has been sold at 5½d, and for a large invoice 5¾d. has been refused.—Fourteen bales of the River Plate Land and Farm Co. clip sold at 7¾d per lb., all actual tare and without discount. At the auctions 360 bales unwashed Santiago sold at 7¼d to 8d, and the demand continues. The present value of good average unwashed new clip we quote as under:—

Saxony and Merino, B. Ayres, 5½d per lb., B. Oriental, 7¼d do.

First mestizo do., 6½d per lb., B. Oriental, 6¾d do.

Second ditto, do., 5d per lb., Banda Oriental, 6½d do,

Third ditto, do., 4¾d per lb., Banda Oriental, 7d do.

Cordova and Santiago we value:

Good washed, 8d per lb., ditto unwashed, 6½d ditto.

Average washed, 7½d per lb., unwashed, 6d ditto.

MARAVILLA COCOA—*For Breakfast.*—The *Globe* says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers, discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœpaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœpathic Cocoa and Soluble Chocolate. Steam-Mills—Brick Lane, London.

Amateurs of these Wines can provide themselves at moderate prices in any quantity that may suit them, from one can and upwards.
Apply at 156 Calle Venezuela. 120.3pm13

TIME'S CERTIFICATE.—For 37 years Bristol's Sarsaparilla has been purifying the vitiated blood of diseased humanity. The chemiecal antagonist of every species of virus that corrupts the flesh, inflames the skin, impairs the elasticity of the sinews, injures the glands, or destroys the bones, it has saved hundreds of thousands from the horrible fate of being decomposec aliwe by scroula, cancer, scurvy, necrosis, abscess, and other external diseases which resit the action of mineral medicines, but are arrested and obliterated with absolute certainty by this pure vegetable blood depuratiwe. When ulcerous and eruptive maladies are accompanied, as is generally the digestive organs, Bristol's Sugar-coated Pills should be used in conjunction with Bristol's Sarsaparilla

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

P. P. Mauá & Co.

VALUABLE SAW MILL PROPERTY FOR SALE, IN BRAZIL.

A very favourable opportunity for a profitable investment in producing the most beautiful kinds of the variegated woods of Brazil, is now offered to dealers in Mahogany, Rosewood, Lignumvitæ, Brazilian Cedar, Cannela, Perroba, and the celebrated Arriba, the richest veined cabinet woods of South America.

The transportation of logs down the River Itajhay, by one branch of fifty miles, and another of forty miles, affords great facilities for an abundant supply for the Saw Mill.

The Mill is located only 1¾ miles from the sea, in the Province of Santa Catharina, 45 miles distant from Desterro, the capital, and 350 miles south of Rio de Janeiro by sea. Vessels drawing 18 feet of water can take cargoes from the Saw Mill Wharf.

The Saw Mill is 108 feet by 72 feet, with about six acres of land, containing orange and banana trees, and a tenement House 108 feet by 32 feet.

Piles are driven to form a large Boom for Logs, and a Logway and Apparatus made for drawing up the logs to the Mill, together with a Double-truck Railway for delivering the sawed lumber on shipboard.

An Office and Storehouse are on the Premises

There are two new large Cylindrical Flue Boilers, with a return flue through each, made of the best flange iron, and a powerful Steam Engine, capable of sawing 12,000 feet of boards in a day; a 60-inch circular saw, spare saw, and extra movable teeth, slabbing and edging saw, best double leather belts, a good blacksmith's and carpenter's shop, turning engines, and a supply of vices and tools for repairs.

The whole Establishmedt is the most complete in South America.

A new and first-rate large planing and grooving machine is in operation in the Mill.

A Plan of the Building, and samples of the beautiful available woods, may be seen, on application to Crawford Allen, Providence; or Allen D. Baily, 181 Pearl-street, New York. Post Office address—Box No. 690.

MESSRS.
NORTON AND SUTHERLAND,
(From Collard and Collard, London),
PIANOFORTE, ORGAN, AND HARMONIUM TUNERS AND REPAIRERS.
Pianofortes Bought, Sold, and Exchanged.

Mr. T. J. NORTON,

Having just returned from England, begs to inform the Public that he has made arrangements with Collard and Collard to supply them with a peculiar make of Instrument (patented) suitable for the climate, all the bracings being made of wrought iron; no extra charge for these improvements, but all Pianos ordered from Messrs. N. and S. can be had at London prices (see Illustrated Catalogue.) These Pianos are the best brought into the country.

Messrs. N. and S.

Also beg to call attention to their new class of Harmonium, suitable for drawing room or church, the quality being unsurpassed by any other maker; most parts of the instruments being screwed, it is impossible that the climate can affect them. To be obtained only from

Messrs NORTON & SUTHERLAND,
Buenos Ayres.

Pianofortes re-covered with best English felt. Fronts re-silked. New Ivories, &c.

MUNICIPALITY

Proposals will be received for the construction of the new Slaughter Works, at the South Market, the Plans for which have just been sanctioned by the Authorities.

Parties must be prepared to conclude the whole work with their own capital, as no pecuniary advances will be made by this Corporation. The Plans may be seen at the Engineer's Office. The Chief of said Department will give all the necessary information as to the number and quality of the Materials to be therein employed. The Works must be finished and in working order within eighteen months from the celebration of the Contract.

In payment, the Municipality binds itself to pay monthly for as many years as shall be agreed on by the contracting parties, the sum of $6 m|c on each head of cattle slaughtered therein, from the moment the Works are first brought into requisition.

The preference will be given to whomsoever gives the best guarantee and requires the shortest time to collect the above tax. No License will be given to any other Killing Ground whilst the Contract for this lasts.

The Contractor must lodge a certain amount as security for the proper fulfilment of the works.

Sealed Tenders must be deposited in the Secretary's Office before the 16th of March, on which day, at Two p.m., they will be opened by the Congreso de Gobiernos, in presence of the proposers. | feb24

JORGE P. CRAUFURD
Secretario.

NOTICE TO SHIPOWNERS AND SHIPMASTERS.

The Marine Railway at Colonia being completed, public attention is called to the following Tariff of Charges:

Capacity of 500 Tons, dead weight.

Sailing Vessels and Steamers of over one hundred [100] tons, English or American measurement, will pay a rate of one dollar ($1.00) per ton gold, for being taken up. Each nominal horse power of engine in steamers, will be charged for as an additional ton of messurement.

Sailing Vessels or Steamers, whose entire registered tonnage and horse power of engines does not equal one hundred (100) tons, will pay the rate of one hundred [100] tons.

All cargo will pay one dollar and a-half (1.50) in gold, per ton, for being taken up, and the regular rates for laying on.

For laying on the Railway, from the hour the Vessel or Steamer is properly up, for each twenty-four (24) hours, seventy-five ($0.75) cents. per ton. in gold, and any twenty-four (24) hours entered upon will be charged as a full day.

Wrecked Vessels or Steamers, whose bottoms are broken, will not be taken at the regular rates, but must make an especial agreement with the Company's Agent at Colonia.

No charge will be made while laying on, for Sundays or stormy days, when no work can be done below the load line of the Vessel or Steamer.

ALLIANCE BRITISH AND FOREIGN LIFE AND FIRE ASSURANCE COMPANY
BARTHOLOMEW LANE, LONDON
CAPITAL FIVE MILLIONS STERLING.
ESTABLISHED MARCH, 1824.
BOARD OF DIRECTORS:—
PRESIDENT—
Sir Moses Montefiore, Bart., F.R.S.
DIRECTORS—
James Alexander, Esq. (Alexander, Fletcher, & Co).
Charles George Barnett, Esq. (Barnett, Hoares, Hanburys, & Lloyd).

AUDITORS—
Richard Hoare, Esq. (Hoare, Miller, & Co).
Sir Thomas Fowell Buxton, Bart., M.P.
Sir Curtis Miranda Lampson, Bart.
The Company insures against loss or Damage by Fire Private Dwelling-Houses Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:

1st. Security
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree)

The Company's large Capital, under the immediate management of the Directors of this Establishmont, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

Any further information can be obtained on pplication to

GLOVER DARBISHIRE & CO.,
17 Calle Florida

GINEBRA. ANCLA.

A LOS SEÑORES ALMACENEROS Y LOS DEL GREMIO ESTABLECIDOS EN LA CAMPAÑA, COMO A TODOS LOS CONSUMIDORES DE GINEBRA EN GENERAL.

Habiendo los Señores J. Lassalle hijo introducido ultimamente fuertes partidas de Ginebra con el nombre de un fabricante fingido, hasta en las menores particularidades de la imitacion esta rior de la Ginebra marca Ancla, nos hacer recordar al público que la verdadera Ginebra marca Ancla no puede traerse al Rio de la Plata sino por nuestro conducto, segun consta por el certificado que sigue al pie de la presente.

Hacemos observar que la imitacion que actualmente se está ofreciendo en el mercado, se conoce con facilidad al que nos desconfie y por lo que damos á continuacion las señas de la marca Ancla verdadera.

Esterior de las frasqueras, de un lado se halla el nombre de los fabricantes—

VAN HOYTEMA & CO.

en letras blancas, y tambien una ancla. La tapa de las frasqueras viene con nuestras iniciales A. & H.

El frasco tiene cápsula y etiqueta con el nombre de los fabricantes;—está tambien claramente estampado el dicho nombre en el plano del frasco pero de un lado solo.

LA IMITACION

a la que principalmente se refiere este aviso, tiene casi las mismas señas, solamente que el nombre, de que se han servido los introductores es el de Van Kotema & Co.; han cambiado tambien la H en K y han suprimido la Y que debe seguir despues de la O en el nombre verdadero.

Esteriormente se conoce la imitacion por tener las frasqueras el nombre del supuesto fabricante en letras negras, mientras que la legítima viene con letras blancas. La marca de fuego dice V. K. & Co. en lugar del V. H. & Co. de la legítima. En las letras estampadas en el plano de los fraccos se nota que las de la imitacion son mucho mas grandes que las de la Ginebra Legítima.

Tenemos aviso de otra imitacion mas, pero no nos detenemos con ella, estando por lo que antecede suficientemente esplicadas las señas que unicamente merecen fé.

Se nos ha imitado tambien nuestras Damajuanas de la misma fábrica, pero como todas ellas vienen con nuestro nombre en las etiquetas, hasta que los compradores se fijen en este requisito.

Buenos Aires, 7 de Marzo de 1870.
Arning & Hütz.
Onyo 65.

CERTIFICADO.

Por la presente declaramos haber nombrado a los Sres. Harning & Hütz en Buenos Aires como agentes unicos para la venta en los puertos del Rio de la Plata, de la Ginebra de nuestra fábrica, acreditada bajo la marca Ancla.

Al mismo tiempo nos obligamos a no consignar ni vender los productos de nuestra fábrica de Ginebra a otras casas para la exportacion del Rio de la Plata.—Rottordam, Abril 1869,
[Firmado] Hoytema & C.

El abajo firmado, Consul de la República Argentina en Amsterdam, certifico: que la firma que está al pié de este documento es la de los Sres. Van Hoytema & Co., y escrita de su puño y letra.

Para constancia doy el presente firmado por mi y sellado con el sello de este Consulado.

Amsterdam, 20 de Abril de 1869.
